

## Dataset changes

### Dataset changes webinar

We recently had our first webinars to introduce the new dataset changes.

The two webinars reviewed the updated datasets and help notes for both inpatient, community and 6-month assessment teams.

You can view the recordings [here](#) (you must be signed in to access).

**Note:** The new changes do not come into effect until **1<sup>st</sup> July 2024** and there will be further webinars and resources leading up to this date to address any other questions.

## Annual report and key results

The **SSNAP annual report 2023** publishes findings on stroke care for patients admitted and/or discharged between April 2022 and March 2023. Our Associate Director Dr Ajay Bhalla gave an insight into the main findings and highlights of the latest report. The webinar recording on the report can be found here: [SSNAP - Webinars](#).

To access this report, go to [www.strokeaudit.org](http://www.strokeaudit.org) > Results > Clinical Audit > National and select "Annual". You can also view our **NEW** plain language annual report [here](#).

**Jul-Sep 2023** results are now publicly available, including:

[National Results](#): All Teams Results Portfolio (Results > Clinical > National).

[Regional Results](#): Regional Routinely Admitting Team Slidedeck (Results > Clinical > Regional (ISDN) and select region).

## UK Stroke Forum 2023

We had the opportunity to meet many SSNAP users at the UKSF which was fantastic! We hope you enjoyed the bonus plenary on implementing the new guidelines presented by our clinical directors.

Two research posters were displayed at the UKSF:

- Access to advanced brain imaging according to the National Optimal Stroke Imaging Pathway (NOSIP).
- Advanced imaging implications of new national guidelines for thrombolysis beyond 4.5 hours.

Both posters can be viewed [here](#).
