Dataset Changes

Dataset changes webinars

The second set of the dataset changes webinars took place in March which focused on data entry for inpatient and community teams. Click here for webinar recordings and slides

Following feedback received from SSNAP users, we have created additional resources which include FAQ documents and a therapy factsheet. These and previous webinar recordings/slides can be accessed here. You must be logged in to SSNAP to access.

The new dataset changes come into effect on **1st July 2024,** and there will be further webinars and sessions leading up to this date to address other questions.

User groups

Over the next year the SSNAP user groups will be taken over by **shared learning sessions** on the SSNAP dataset changes.

These will be provider-led sessions which aim to showcase good practice and encourage shared learning.

The first of these sessions will be held in May and focus on scaling data entry processes to accommodate dataset changes.

Further details about registration will be shared in due course

Key approaching dates

Data locking deadlines:
Inpatient teams: 7th May 2024 (January - March 2024 and April 2023 – March 2024, admissions and/or discharges).

Non-inpatient teams: 7th May 2024 (October 2023 - March 2024 and April 2023 – March 2024, discharges).

Ambulance teams: 22nd April 2024 (December 2023 admissions).

For future deadlines are available here.

Key Results

Oct-Dec 2023 results are now publicly available, including:

National Results: All Teams Results Portfolio (Results > Clinical > National).

Regional Results: Regional Routinely Admitting Team Slidedeck (Results > Clinical > Regional (ISDN) and select region).

Please click here to view all results.

Mortality 2021-2023

The casemix adjusted 30-day mortality results for 2021-2023 is now available to teams and will be made public in May. Please see the [mortality flyer](#) and [reporting process](#) for mortality outliers. Teams which are outliers have been contacted directly.

Please note – the outlier process for April23–March24 has changed, please read [this article](#) for more information before the upcoming data locking deadline on 7th May.

Research

In May, SSNAP will present two posters at The European Stroke Conference (ESOC 2024) being held in Basel.

• Are UK stroke units getting better at delivering anticoagulant reversal treatment for intracerebral haemorrhage? Analysis of national registry data

• Pre-hospital timings for emergency stroke presentations in the UK: Are national FAST campaigns working?

New dataset resources

The resources below are now available to support with the upcoming dataset changes.
- New dataset questions and helpnotes
- Therapy Factsheet
- FAQs - Dataset and helpnotes
- Webinar recordings and slides
- Import/export specification (inpatient)

Coming soon:
- FAQs - Data entry
- Printable form
- Therapy calculator

**All resources will be made available [here](#).**

Did you know?
The thrombectomy national results provides two level reports showing patients transferred out and patients directly admitted by teams.
